

ORANGE CLEAN RTU

Lynx® ORANGE CLEAN RTU is a water based, multi-purpose cleaner degreaser which produces a thick rich foam from a standard trigger sprayer. ORANGE CLEAN RTU is the "aerosol alternative" with a full 32 ounces of liquid and a fragrance that makes it pleasant to use. While it is ready-to-use you could actually say it is dilutable . . . since it mixes with air to provide better coverage with less actual liquid. Spray and wipe on surface to be cleaned; particularly well-suited for vertical surfaces where the clinging power provides added dwell time for tough soils. Cleans and deodorizes while leaving a citrus scent.

Got a tough job? Lynx® ORANGE CLEAN RTU is the perfect answer.

DIRECTIONS

For use on all hard surfaces and material not harmed by water. This product is ready to use. Just spray soiled surface and wipe clean. Cleans and deodorizes while leaving a citrus scent.

DANGER
